Cesifo junior workshop on migration (Munich),
EALE (Barcelona),
Tinbergen institute (PhD and brown bag seminars, Amsterdam)

INTERESTS

I am interested in crime economics, labour markets, and place-based inequalities. I aim to do research with an eye on multidiscplinarity to foster dialogue between disciplines (especially history and economics).

Outside of academia, I am an enthusiast of music and triathlon, which I both practice regularly.

Press article I wrote on supermarket franchising in Belgium (in french): link.
